business and permanent business. That's what we want.

Call us up and ask us to help you solve your fuel problem; we study these things with the idea of making fuel buying easy

We keep our customers because we satisfy them. If you are not oustomers of ours, call us up and let our representative come and talk with you. It costs you nothing for this. We know the fuel business and we want to give you the benefit of our knowledge.

Incidentally, we also handle feed and grain. Our telephone is 8300. Ring us up and talk over things with us. You never bother us.
